

**Manufacturer & Exporter of
NAPHTHOLS & FAST BASES**

About Shiva Chem International

Shiva Chem International is one of the leading Manufacturer & Exporter of Naphthols Dyes at Vatva, Ahmedabad and We are recently started our second unit in saykha industrial area with very huge capacity for Naphthols Dyes and Fast Bases (Azoic Diazo Component).

Shiva Chem International was incorporated in 2003 as a small scale Naphthols Dyes manufacturing unit. Today Shiva Chem International is one of the foremost Naphthols Dyes manufacturer & exporter.

"Shiva Chem International" committed to provide consistent quality of Naphthols Dyes at most competitive prices & best services with providing strong technical support during the product development and after sales. Keep over customers at the edge of competitiveness by providing highly competitive prices continuously & consistent quality all the time. Give complete satisfaction to our customer every time.

Our Vision

- ✓ To be recognized globally as a reliable solution provider of proven quality products.
- ✓ To maintain high-level of business ethics & work within the framework of environmental safety.
- ✓ To offer high-quality products with optimum utilization of technology at appropriate price.
- ✓ To continuously strive for customer satisfaction beyond their expectation.

Our Mission

- ✓ To continuously provide better & environment-friendly products.
- ✓ To develop & innovate by continuous Research & Development.
- ✓ To go by the motto, 'Customer satisfaction by all means'.
- ✓ To nurture the culture of dynamism and learning in all the employees leading to everyone's professional & personal growth.

NAPHTHOLS

We are leading Manufacturer & Exporter of Naphthols Dyes.

Naphthols are insoluble azo dyes applied to cellulosic fibres by impregnation in a Naphthols solution and subsequent coupling with a color salt. All cellulosic fibres such as cotton, linen, jute, hemp, as well as silk and rayon may be dyed or printed with Naphthols.

This method of dyeing yields a wide range of shades covering deep yellow, orange, scarlet, red, maroon, violet, brown navy and black the shades are brilliant and in general possess excellent fastness to washing, alkalis, acids and chlorine. Many combinations have very good fastness to light. The shades are also resistant to mercerizing, scrooping and cross dyeing in boiling acid solutions.

OUR PRODUCTS

NAPHTHOL AS

NAPHTHOL ASBO

NAPHTHOL ASBS

NAPHTHOL ASD

NAPHTHOL ASE

NAPHTHOL ASOL

NAPHTHOL ASPH

NAPHTHOL ASCL

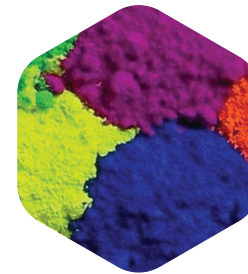

NAPHTHOL ASSW

NAPHTHOL ASTR

Application

Textile Dying & Printing

Pigment Manufacturing

Tie & Dye Industries

Availability

Naphthols are available in the Powder form. We are also producing Naphthols in the Liquid form. Normally, packing of Naphthols is in 25 kgs brand new HDPE bags with inside double liner. We can also provide packing in Plastic drums / Iron drums / Fibre drums as per our customer's requirements.

We are leading Manufacturer & Exporter of Fast Bases (Azoic Diazo Component).

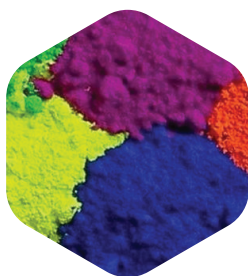

The Fast Bases are very widely used in Textile Industry. Dyeing with Naphthols
Fast Bases are more economical even compared to Reactive Dyes. Maroon,
Blue, Yellow obtained with these products are not possible with any other
Dyestuff. The Fastness Property of these products is excellent. Light Fastness
is almost as good as 6-7 almost nearer to the Vat Dyes.

FAST BASES (AZOIC DIAZO COMPONENT)

Application

Textile Dying & Printing

Pigment Manufacturing

OUR PRODUCTS

Fast Bordeaux GP Base

Fast Orange GC Base

Fast Garnet GBC Base

Fast Red B Base
